APPLYING FOR

Python Backend Developer

ABOUT ME

Why I switched from marketing to programming?

I've always had a structured, analytical way of thinking and a passion for building and improving things. About two years ago, while working in digital marketing, I discovered programming – and it instantly clicked. I realized software development would let me use my natural strengths to design tools and systems that can help people. Since then, I've been focused on learning and growing the skills needed to make the transition into tech.

PROJECT

10/2024 – CURRENT

Budget Management System Application

A comprehensive full-stack application for managing personal and family finances. The application uses Django and Django REST Framework for the backend, Streamlit for a fast, interactive frontend, and is fully containerized with Docker. Main features:

- Multi-location Tracking: Record transactions across multiple locations
- Bucket System: Organize your money into different financial purposes
- Income Splitting: Automatically distribute income across multiple financial buckets
- Custom Categories: Organize with customizable transaction categories
- Inter-wallet Transfers: Move funds between different locations and buckets with neutral transactions
- Comprehensive Analytics & Visual Insights: Make informed decisions with data visualizations and monthly, yearly, historical reports

App links:

- Backend / Django REST Framework: <https://api.elisei.pro>
- Frontend / Streamlit App: <https://app.elisei.pro>
- GitHub Repository & Documentation: <https://github.com/eliseiprofir/budget>

Skills acquired:

- Syntax & Control Flow (variables, data types, operators, loops, conditionals)
- Functions & Functional Programming (functions, lambdas, recursion)
- Object-Oriented Programming (OOP)
- Testing, Error Handling & Debugging
- Data Structures & Algorithms
- Libraries, File I/O & Regular Expressions
- Backend Development & APIs: Django, Django REST Framework (DRF), REST API Design, JWT Authentication, Asynchronous Task Management (Django Q), API Testing
- Data Storage & Caching: PostgreSQL (Neon), Redis (Upstash), Cache Invalidation & Optimization
- Frontend & Data Visualization: Streamlit, Pandas
- Version Control, Deployment & Infrastructure: Git & GitHub, Docker, GNU Make, Railway, Environment-Specific Configuration Management
- Testing: Pytest & Unit Testing, Model Bakery (test fixtures)
- Tools: Visual Studio Code, PyCharm, Jupyter Notebook

EDUCATION AND TRAINING

09/2023 – 01/2024 Online, United States

CS50x: Introduction to Computer Science Harvard University

- Understanding computer science and programming
- Thinking and solving programming problems efficiently: abstraction, algorithms, data structures, encapsulation, resource management, security, software engineering, and web development
- Familiarity with a number of languages: C, Python, SQL, and JavaScript, plus CSS and HTML

Duration: 11 weeks long – 10-20 hours per week

Certificate: <https://certificates.cs50.io/e9c0eebe-03cb-45cd-909c-69323cbdc705.pdf?size=A4>

Website <https://pll.harvard.edu/course/cs50-introduction-computer-science> | Final grade 10

07/2023 – 09/2023 Online, United States

CS50's Introduction to Programming with Python Harvard University

- read & write code
- functions, arguments, and return values
- variables and data types
- conditionals, loops, exceptions, and Boolean expressions
- object-oriented programming (OOP)
- regular expressions, file I/O, and libraries
- testing and

debugging ● hands-on practice and exercises inspired by real-world programming problems
Duration: 9 weeks long – 3-9 hours a week.

Certificate: <https://certificates.cs50.io/63506548-db19-42b9-80de-3c045636d587.pdf?size=A4>

Website <https://www.harvardonline.harvard.edu/course/cs50s-introduction-programming-python> | Final grade 10

05/2024 – 06/2024 Online, United States

CS50's Introduction to Databases with SQL Harvard University

● CRUD operations: create, read, update, and delete data with relational databases ● model real-world entities with appropriate types, triggers, and constraints ● eliminate redundancies and reduce potential for errors ● join tables together using primary and foreign keys ● automate searches with views and indexes

Duration: 7 weeks – 6-12 hours per week

Certificate: <https://certificates.cs50.io/91539629-c258-4f6e-b4eb-a1c1b8120b1d.pdf?size=A4>

Website <https://pll.harvard.edu/course/cs50s-introduction-databases-sql> | Final grade 10

03/2024 – 05/2024 Online

Scientific Computing with Python freeCodeCamp

Skill learned | Project built: ● String Manipulation | Cipher ● Numbers and Strings | Luhn Algorithm ● Lambda Functions | Expense Tracker ● List Comprehension | Case Converter Program ● Regular Expressions | Password Generator ● Algorithm Design | Shortest Path Algorithm ● Recursion | Solving Tower of Hanoi Puzzle ● Data Structures | Merge Sort Algorithm ● Classes and Objects | Sudoku Solver ● Tree Traversal | Binary Search Tree

Certificate: <https://www.freecodecamp.org/certification/proelisei/scientific-computing-with-python-v7>

Website <https://www.freecodecamp.org/learn/scientific-computing-with-python/>

02/2024 – 04/2024 Online

Clean Code Academind / Udemy

● Code clarity & structure: clean naming, good commenting principles, code formatting ● Function design: single-responsibility, minimal parameters, DRY code (Don't Repeat Yourself) and splitting functions to keep them small ● Control flow simplification: reducing nesting with guard clauses, extracting logic into functions, using error handling ● Object-oriented design: cohesion in small classes, understanding data containers vs objects with behavior, the Law of Demeter ● Clean architecture principles: SOLID principles in maintainable, modular, testable code

Certificate: <https://www.udemy.com/certificate/UC-6162c1c2-ec76-4224-a9fc-2145533e0a83/>

Website <https://www.udemy.com/course/writing-clean-code>

01/10/2016 – 07/07/2019 Iași, Romania

Batchelor in Economics and Business Administration Universitatea „Alexandru Ioan Cuza”

Website <https://www.faea.uaic.ro/> | Field of study Management | Level in EQF EQF level 6 | Thesis Well-being at workplace

WORK EXPERIENCE

SELLification – Educație și Formare Experiențială Timișoara / Online, Romania

Email contact@sellification.org | Website www.sellification.org

Marketing Manager (Full-time)

02/2020 – 02/2024

I started as a Junior Marketer, then rapidly advanced to Specialist Marketer and Marketing Manager.

- Created marketing content (emails, posts, campaigns) and delivered 750+ emails and 100+ Facebook Ads campaigns, generating tens of thousands of euros in sales.
- Managed and optimized digital channels (social media, websites, landing pages, automations in WordPress & Active Campaign), improving lead capture and conversions.
- Coordinated team projects as Project Manager, defining processes, delegating tasks, and ensuring timely delivery.
- Helped grow online communities to over 30,000 members and supported 50+ online events with 40,000+ participants.

Skills & Tools: ● Online Marketing ● Copywriting ● Social Media (Facebook Ads, Instagram, LinkedIn, YouTube) ● Email Marketing (Active Campaign) ● Marketing Strategy ● Product Promotion ● Project Management ● Client & Technical Support ● Basic Design: Photoshop, Canva ● Video/Audio editing (Adobe Premiere) ● Collaborative tools (Microsoft Office, Google Suite, ClickUp, Trello, Asana, Slack, Zoom, Google Meet)

During my collaboration with the SELLification team, I have developed significant interpersonal skills:

- Proactive, clear, and considerate communication
- Active listening to better understand tasks and working methods
- Teamwork and support for colleagues whenever needed

BIZZ.CLUB România Timișoara / Online, Romania

Department Business Networking | Email office@bizz.club | Website <https://bizz.club/>

Specialist Marketer (Part-time)

04/2020 – Current

- Managed and optimized social media (Facebook, LinkedIn) and audio/video platforms (YouTube, Spotify).
- Created articles, posts, and marketing content (emails, social media) derived from weekly business networking events.
- Produced and edited podcast episodes and videos (cutting, trimming, transitions, audio finishing).

Beekeeper Galati, Romania

Freelancer

04/2013 – 07/2019

I started and managed a family business when I was 16 years old (during high school through university):

- Produced ~750 kg of honey annually
- Bred ~150 Buckfast queen bees annually
- Generated ~3,000 EUR average annual profit

LANGUAGE SKILLS

MOTHER TONGUE(S): Romanian

Other language(s):

English

Listening C1

Spoken production B2

Reading C1

Spoken interaction B2

Writing B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

ME BEYOND CODE

Who am I?

I am a happy husband. :)

I build my life around my values and beliefs.

I like to play the piano, to read (preferably in nature), and to run.

I am happy when I bring well-being into the lives of those I meet.

I appreciate punctuality, order, and organizing things, and I pay attention to details (sometimes too much).

I seek to make my work easier through automations and optimizations.

I believe there is always room for kindness, friendliness, and respect.

I believe that every person is beautiful in their own way, with strengths and weaknesses.

Hobbies

- Music and playing the piano: <https://youtu.be/0jZpEHIMWDQ>
- Technology and applications
- Organization, automation, optimization of things
- Sport
- Reading
- Cars & Driving
